

Tshepo Gladwin Ramantso

FULL STACK WEB DEVELOPER

tshepo.ramantso@outlook.com | +27 65 144 3709 | [GitHub](#) | [LinkedIn](#) | [Wellfound](#) | [Portfolio](#)

SUMMARY

Full Stack Web Developer with experience building responsive and scalable web applications using JavaScript, React, Node.js, and Ruby on Rails. Trained in modern development practices, including RESTful APIs, authentication systems, and collaborative Git workflows. Passionate about building clean user interfaces and reliable backend systems while continuously improving technical skills.

SKILLS

Front-End: React(Redux, TanStack Query), Next.js, JavaScript (ES6+), TypeScript

Back-End: Node.js, Express, Ruby on Rails

Database: PostgreSQL, MongoDB

Tools & Practices: Git, Docker, REST APIs, Authentication(JWT), Postman, Conventional Commits

Collaboration: Agile Standups, Code Reviews, Remote Pair Programming

EXPERIENCE

SELECTED PROJECTS

Full Stack Web Developer

Remote

Nov 2022 – Present

[StaySphere](#)- Full Stack Hotel Reservation Platform (*Airbnb clone*)

- Collaborated with a remote developer using Git flow and daily standups
- Built with Ruby on Rails(backend) and React/Redux(frontend) with PostgreSQL
- Implemented authentication and authorisation using Devise
- Designed relational data models and managed schema with PostgreSQL
- Documented API endpoints using RSpec-Rails

[Space Traveller's Hub](#)- Rockets and Missions Reservation Application (*SpaceX clone*)

- Collaborated with a remote developer using Git flow and daily standups
- Built with React/Redux
- Integrated SpaceX public API to fetch live rockets and missions data
- Tested components and Redux slices using Jest

[Portfolio API](#) – RESTful API

- Built with NodeJS, ExpressJS, Non-Relational Database MongoDB and Mongoose Modelling library.
- Enforced conventional commits standard using Commitlint and Husky git hooks to maintain a clean and readable commit history

MOLOTOVCOCKTAIL

Front-End Developer (React / JavaScript)

Remote

Nov 2024 – Apr 2025

- Built and maintained reusable React components for SCANS (QR code generator) and WIRK (recruitment SaaS)
- Collaborated with designers to deliver responsive, cross-browser compatible UIs using TailwindCSS

MICROVERSE

Mentor (Volunteer)

Remote

Feb 2023 – Mar 2024

- Mentored 2 junior web developers, providing technical support through code reviews.
- Proposed improvements to code organisation to improve code quality by at least 90% before submitting for final review and overall performance.

- Provided advice and tips on maintaining motivation and longevity in the program.

HARMONY GOLD MINE Johannesburg, South Africa

Cost Accountant(On-site)

Mar 2014 – Jul 2017

- Strong analytical abilities to identify process inefficiencies and implement effective solutions, which ensured that 90% of invoices received from suppliers were invoiced correctly and 100% were paid on time.
- Proven track record in achieving monthly production targets while maintaining a strict budget of an estimated R500,000 per section.
- Exceptional communication skills to convey information to both technical and non-technical stakeholders, by chairing and organising weekly cost meetings with Mine Overseers, Mining Manager and Finance Manager.
- Part of the team tasked with resuscitating the Kusasaletu subsidiary back into profitability by tracking Mining KPIs and reporting over-expenditure.

EDUCATION

MICROVERSE

Nov 2022 – Mar 2024

Remote Full Stack Web Development Program, Full-Time

- Obtained Full Stack Developer Certificate.
- Spent 300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily stand-ups to communicate and collaborate with international remote developers.

UNIVERSITY OF JOHANNESBURG

Feb 2004 – Dec 2007

BCom, Accounting and Business Management
